

UC RIVERSIDE

COVID-19: Return to Campus Survey

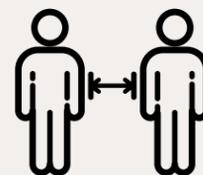

Total Responses: 1228

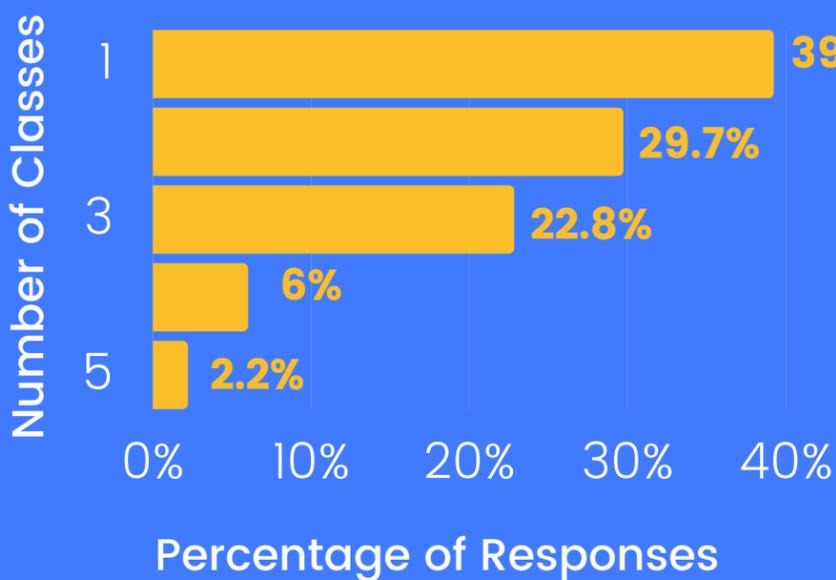

85.6%

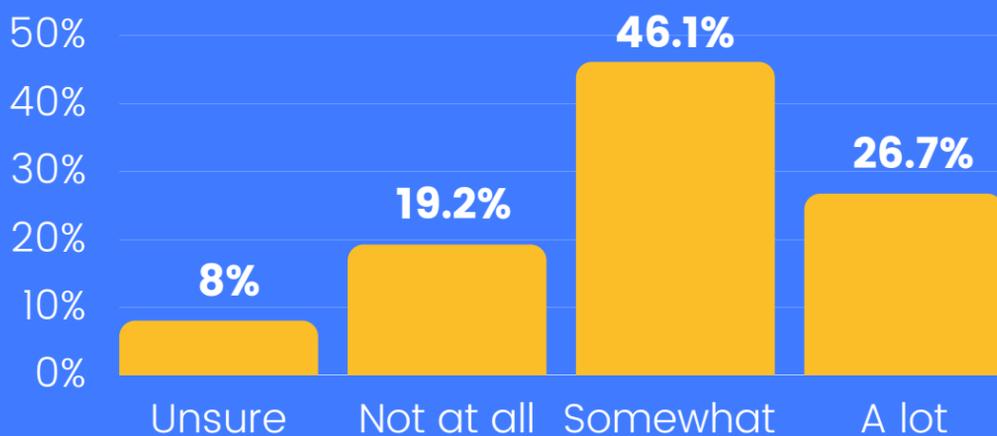

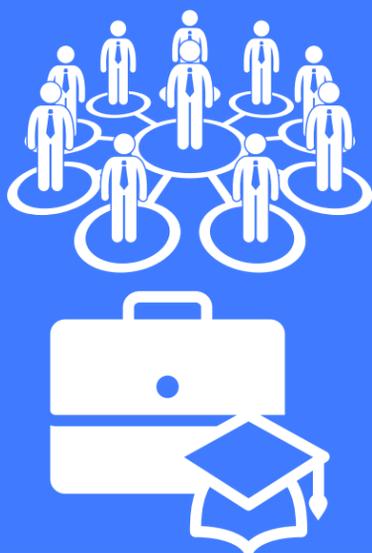

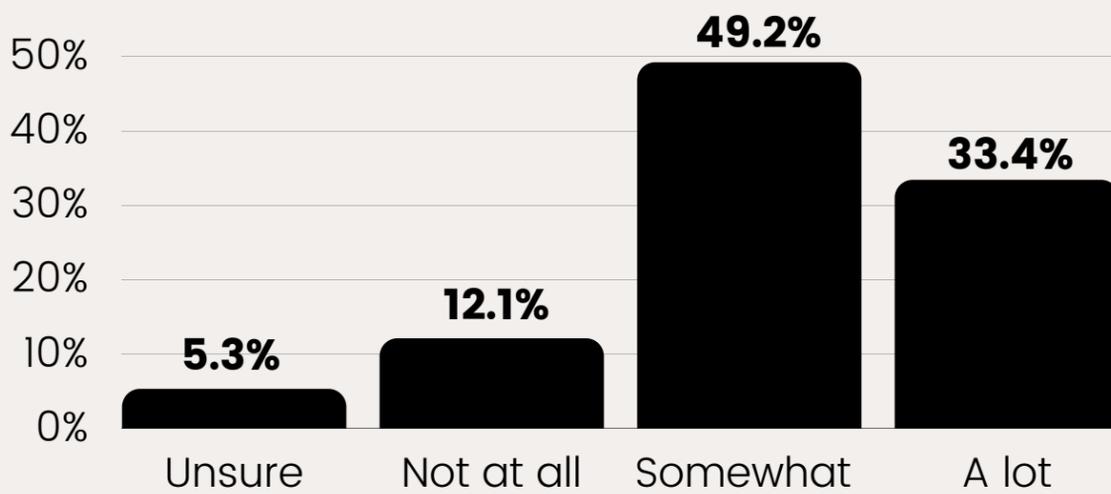

of students believe that UCR took adequate steps to return to campus.

How many of your fall classes were on campus?

Did Covid-19 restrictions (including online classes, staying isolated) impact students' education (including GPA, major, etc.)?

Did Covid-19 restrictions impact students' future career plans (including career interest, job/internship availability, networking opportunities, etc.)?

COVID-19:

Return to Campus Survey

Did you know?

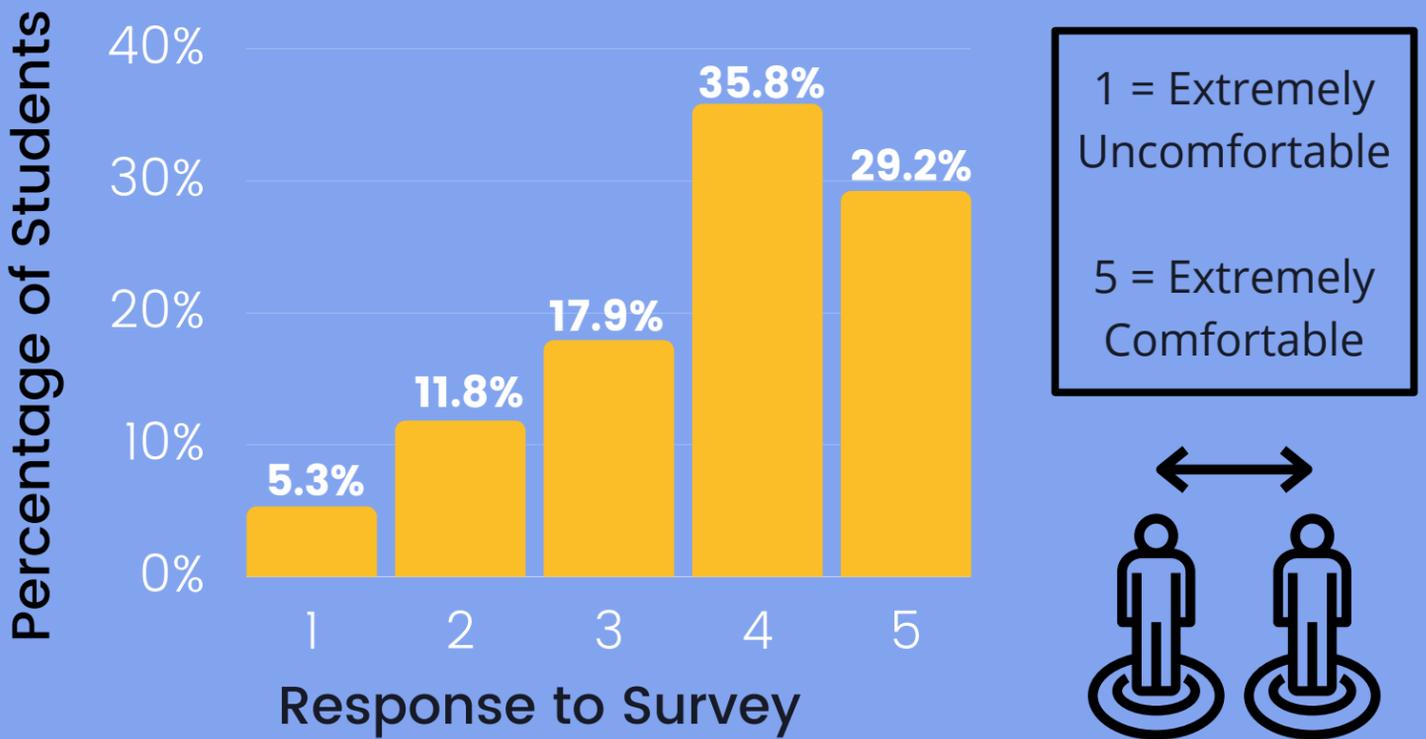

59.4% of students think that remote learning and Covid-19 restrictions negatively impacted their mental health. (including depression and stress)

In a survey done by the CDC in June 2020, 31% of young adults reported symptoms of anxiety or depression.

NIMH » One Year In: COVID-19 and Mental Health (nih.gov)

How comfortable do students feel regarding UCR's decision to return to in-person?

What do students want available on campus?
