This will help develop a plan for the future

		Institutionalization of the voter registration efforts ● This committee will develop connections with other offices and voter registration efforts on campus to share information and ensure that positions, rather than individuals, are connected for continuity from 2018-2019 to 2019-2020. Providing ongoing voter education to UCR students ● These efforts will largely be driven by passionate committee members who can help students on campus get involved politically and in the surrounding community ● We will focus on actions that political actors (e.g. the CA Assembly/Senate, CA Governor, Congress, or the President, etc.) take and how these affect students and how to engage with these decisions.
