Quality of Student Parking Survey

Student Voice Committee

Responses: 1128
Q7: Why do you choose not to regularly park in UCR parking lots?
Why do you choose not to regularly park in UCR parking lots?

- Biking: 17.3%
- Car accidents: 7.3%
- Public transportation: 20.5%
- Distance to and from parking lots: 17.3%
- Have other means of transportation: 17.3%
- Other: 2.9%
- Parking prices: 7.1%
- Personal safety: 7.1%
- Vehicle safety: 2.9%
The results obtained are statistically significant
  ○ \( p = 0.00000000000000022 \) for Chi-Square GOF

We expect the distribution of all UCR students’ responses to look the same

We expect that between 17.85% and 23.35% of all UCR students choose to not park in UCR parking lots because of parking prices
Q9: Have you ever felt unsafe walking to or from any of the UCR parking lots?
Have you ever felt unsafe walking to or from any of the UCR parking lots?

- No: 41.5%
- Yes: 58.5%
The results obtained are statistically significant
  ○ (p=0.0000000356 for z-test)

We expect the distribution of all UCR students’ responses to look the same

We expect that between 55.19% and 61.67% of all UCR students have felt unsafe walking to or from a UCR parking lot
Q10: Do you have any safety concerns if and when parking on campus?
Do you have safety concerns if and when parking on campus?

- Car burglary: 24.2%
- Personal safety: 23.2%
- Breaking a window: 19.3%
- Vandalism: 19.3%
- Car accidents: 12.4%
- Other: 1.6%
The results obtained are statistically significant
  ○ (p=.00000000000000022 for Chi-Square GOF)

We expect the distribution of all UCR students’ responses to look the same

We expect that between 22.4% and 26.1% of all UCR students are concerned about car burglaries when parking on campus

We expect that between 21.5% and 27.1% of all UCR students are concerned about personal safety when parking on campus
Q11: What do you believe is the most effective solution to increase safety in UCR parking lots?
What do you believe is the most effective solution for increasing safety in UCR parking lots?

- More security cameras: 38.3%
- More security guard presence: 33.8%
- More police presence: 11.9%
- More blue security polls: 9.1%
- No improvements: 7%
- The results obtained are statistically significant
  - (p=.00000000000000022 for Chi-Square GOF)

- We expect the distribution of all UCR students’ responses to look the same

- We expect that between 35.1% and 41.6% of all UCR students believe the most effective solution for parking lot safety is more security cameras

- We expect that between 30.7% and 36.9% of all UCR students believe the most effective solution for parking lot safety is more security presence
Q13: During what time do you have the most difficulty finding parking?
During what time do you have the most difficulty finding parking?

- Afternoon (12 PM - 5 PM): 55.8%
- Evening (5 PM and later): 7.8%
- Morning (7 AM - 12 PM): 36.4%
The results obtained are statistically significant
  ○ \( p = 0.00000000000000022 \) for Chi-Square GOF

We expect the distribution of all UCR students’ responses to look the same

We expect that between 52.3% and 59.1% of all UCR students have the most difficulty finding parking during the afternoon (12pm-5pm)
Q14: Have you ever been late or skipped a commitment on campus due to inability to find parking?
Have you ever been late or skipped a commitment on campus due to inability to find parking?

51.4% No
48.6% Yes
We expect that between 45.2% and 51.9% of all UCR students have been late or skipped a commitment on campus due to inability to find parking.
Q18: Rate how accessible UCR’s disabled parking spaces are in terms of availability
Rate how accessible UCRs disabled parking spaces are in terms of availability
The results obtained are statistically significant
  ○ (p=0.02051 for Chi-Square GOF)

We expect the distribution of all UCR students’ responses to look the same

We expect that between 60.9% and 86.9% of all UCR students would rate the accessibility of disabled parking spaces in UCR lots as a 3 or above
